# HOW TO MEASURE YOUR KITCHEN

Draw a free-hand sketch of the entire room.

Measure everything in inches.

Start measuring from a corner and work in sequence around the room until you have returned to starting point.

Measure major appliances and their location against the wall.

Measure at approximately countertop

Always measure outside of window and door casings. Be sure to make note of casing width.

Note ceiling height.

**NOTE:** HEAT REGISTARS, RADIATOR, AIR CONDITIONING VENTS, COLD AIR RETURN AND ELECTRICAL OUTLETS AND SWITCHES.
